SMOKED WILD SALMON & VALUE ADDED PRODUCTS

Wild Pacific salmon is one of nature's healthiest and purest foods, and is an excellent source of protein that is low in saturated fat. Salmon also contain highly unsaturated oils, called Omega-3 polyunsaturated fatty acids that have been linked to numerous health benefits. Compared to other protein sources, salmon is also generally lower in fat and calories than beef, poultry or pork, and contains the same or slightly less cholesterol.

Canadian Fishing Company offers a wide variety of value-added products custom processed to specifications under our famous 'Gold Seal' brand or your private label.

All our products are kosher certified.
